👤 PROFESSIONAL SUMMARY

Senior Business Intelligence Engineer with over five years of experience transforming complex data into strategic, decision-ready insights across SaaS organizations. Currently at Nutanix as part of the SaaS Data Team, I operate across the full data lifecycle from building resilient pipelines on Databricks using PySpark to designing enterprise-grade dashboards in Power BI, Tableau, and Figma (Dashboard UX) that directly influence executive decision-making.

What sets me apart is the ability to think both upstream and downstream engineering robust data infrastructure while understanding how stakeholders interpret and act on that data. I thrive in fast-paced, collaborative environments with a relentless focus on automation, data quality, and scalable design, ensuring every pipeline built and every dashboard shipped drives clarity, trust, and measurable business impact.

✅ CORE COMPETENCIES

Databricks (Certified)

Apache Spark

PySpark

SQL

Power BI (Certified)

Tableau (Certified)

Dashboard Design

Data Storytelling

Data Modeling

Figma (Dashboard UX)

Cursor AI

Claude Code

📁 PROFESSIONAL EXPERIENCE

Nutanix

Apr 2024 – Present

Senior Business Intelligence Engineer | Bangalore, India

- Design and deploy enterprise-grade BI solutions leveraging Databricks, Spark, and PySpark streamlining reporting workflows, accelerating data accessibility, and reducing time-to-insight at scale.
- Architect and deliver high-impact dashboards, scalable data models, and end-to-end analytical solution using SQL, Power BI, and Tableau powering efficient, data-driven decision-making and surfacing actionable operational insights across business units.
- Drive automation strategies across the analytics pipeline to enhance data quality, reduce processing latency, and optimize platform performance for near real-time decision-making.
- Prototype and standardize dashboard design systems and reusable templates in Figma, ensuring visual consistency, stakeholder alignment, and enterprise-wide adoption of BI assets.
- Partner with cross-functional stakeholders to translate complex business requirements into scalable, insight-driven solutions that deliver measurable outcomes aligned with organizational priorities.
- Produce high-impact analytical reports and data narratives that directly inform strategic initiatives, operational improvements, and revenue growth at the leadership level.
- Deliver data-backed recommendations that shape critical business decisions, strengthen forecasting accuracy, and elevate overall operational effectiveness.
- Integrate AI-powered development tools such as Cursor AI and Claude Code into daily workflows to accelerate dashboard prototyping, automate repetitive engineering tasks, and enhance overall delivery velocity across the analytics team.
- Upskilling in data literacy through training programs and knowledge-sharing initiatives across teams, fostering a culture of analytical self-sufficiency and data-driven thinking within the organization.

phData

Apr 2023 – Apr 2024

Analytics Consultant | Mumbai, India

- Delivering project-based consulting engagements and assisting clients in developing analytical requirements through prototype and visualization.
- Managing clients expectations by leading weekly status reports to clients; proactively solicit client feedback by running working sessions.

- Creating data visualization solutions and analyzing/troubleshooting product performance or deployment issues.
- Supporting or assisting with backlog support and development.
- Identifying and recommending functionality and solutions to meet and enhance user requirements.
- Recommending best practices to optimize data models, reports, and overall platform architecture.

ScatterPie Analytics

Aug 2021 – Apr 2023

Data Analyst (promoted from Junior Data Analyst) | Mumbai, India

- Developed customized Tableau dashboards for enterprise clients, delivering strategic insights that improved business outcomes and drove measurable revenue growth.
- Designed and monitored ETL workflows using Alteryx and Tableau Prep, delivering scalable data automation solutions for recurring reporting needs.
- Generated actionable insights from large datasets, identifying trends and patterns communicated through effective data visualizations to inform decision-making.
- Mentored junior analysts and interns on Tableau, Alteryx, and data analysis best practices, building team capability in visualization and analytics tools.

Media.net

Aug 2020 – Aug 2021

Research Analyst | Mumbai, India

- Monitored and maintained analytics dashboards and reports tracking key performance metrics, revenue, and goal alignment across US, UK, and CA markets.
- Conducted data-driven research and analysis, delivering cross-team insights for programmatic advertising optimization across multiple industry verticals.
- Generated weekly and monthly performance reports for stakeholder visibility on KPIs, goal tracking, and revenue performance metrics.
- Managed accounts across multiple industry verticals, optimizing domain performance for contextual and programmatic advertising to boost revenue growth.

 PERSONAL PROJECTS

Databricks Data Engineering Projects

- Engineered 10 production-grade Medallion architecture pipelines using PySpark, Delta Live Tables, Auto Loader, SCD Type-2 tracking, and Unity Catalog governance.

SQL Data Analysis Projects

- Completed 13 real-world projects across 8 industries on datasets up to 1M+ rows, applying window functions, recursive CTEs, and cloud-native Databricks SQL.

Power BI Data Visualization Projects

- Built interactive Power BI dashboards with custom SVG visuals, advanced DAX measures, and drill-through navigation, earning 500+ LinkedIn engagements.

Tableau Data Visualization Projects

- Designed executive-level dashboards featured as Tableau Viz of the Day, accumulating 75K+ views and 700+ favorites across Tableau Public.

AI Native Data Applications

- Built a three app AI portfolio on Next.js, React, and Vercel: live dashboard generation, executive PPTX decks, and AI sprint briefs.

 CERTIFICATIONS

Databricks Certified Data Engineer

Associate 

Databricks

Databricks Certified Data Analyst

Associate 

Databricks

Tableau Desktop Specialist

Tableau

Power BI Data Analyst Associate
